The following suggestions are received from the Department teachers:

- The content of the course is too vast to include participatory learning of the students. The focus has to solely remain on syllabus completion at all costs
- It is very difficult for the Commerce students to study programming concepts. Visual Basic Practical is not of much use to them, it should be replaced by some other unit which may be of some practical use to the students. The students cannot understand the programming part and are really terrified of this unit. MSExcel is OK
- Syllabus is vast
- VB should be removed from the syllabus
- Syllabus is very vast. Revision of syllabus is required
- No of lectures for each unit to be assigned more
- Reduction of sections in first unit
- Syllabus is vast

Any Suggestions :7 responses

None
More emphasis be given to training on Digitisation/Soft Skills/Cognitive etc.
The course is well rounded in all academic concepts
No
The curriculum no doubt is good but there is still scope for improvement
Addition of internship during the course will help students gain the practical knowledge.
