PROJECTS DONE

Budget Approval System

I carried out this project in final semester BCA. (January - May 2010)

This project aimed at how bills passed by employees automatically through a workflow process and the employee can view the status of his bill anytime.

Online Bulletin Board

I done this project in fifth semester MCA (August- November 2012)

In this project I developed a bulletin board or notice board online. It contains all the updated messages and information that should be reached to the students. It overcomes time and zone limitations.

Material Resource Planning

This project is done by me in Final semester MCA (February-June 2013)

In this project I have developed a system which is a sophisticated and automated method of projecting inventory management actions based upon a full set of considerations.
