From which keyword we import the tkinter in program?	call	from	import	include
The essential thing to create a window screen using tkinter python is _____.	create a button	call Tk() function	to define geometry	to create window

fg in tkinter is stands for _____.	foreground	background	forgap	Forward gap
A _____ is a sequence of characters that defines a search pattern.	Regular Expression	Repetition	Character	Repetition Expression
Which among the following pattern has any five letter string starting with a and ending with s?	^a...s\$	^a...	...s\$	?a....s\$
Which file mode is used to open a file for both reading and writing in binary format?	r	w	w+	rb+
Which among the following will match this pattern ^a...s\$ ?	Alias	An abacus	abyss	Always
Which among the following will match this pattern [abc] ?	Hey Jude	Ac	qwert	mnop
Which among the following will match this pattern [0-39] ?		12 abc	qwert	qwerty
_____ specifies a set of characters you wish to match.	Curly brackets	Period	Question mark	Square brackets
Which among the following will match this pattern ^ab ?	anc	abc	mna	acb
The _____ symbol is used to check if a string <b>ends with</b> a certain character.	^	*	\$	!
The _____ symbol is used to check if a string <b>starts with</b> a certain character.	^	*	\$	!
The _____ symbol matches <b>zero or more occurrences</b> of the pattern left to it.	^	*	\$	!

All python modules are installed using its own built-in command _____.	tip	rip	pip	zip
The default user name to connect with MySQL in windows is _____.	time	welcome	black turn	root
Consider following statements: 1)In the case of MySQL.connector database is optional 2)In the case of MySQLdb database is compulsory.	Statement 1 is true,Statement 2 is false	Statement 1 is true,Statement 2 is true	Statement 1 is false,Statement 2 is false	Statement 1 is false,Statement 2 is true
Fill the following syntax with appropriate word,conn=mysql.connector._____(host='localhost',user='root',password='password')	connect	disconnect	misconnect	someconnect
The _____ method is used to disconnect connection with MySQL.	close()	open()	c()	cl()
_____ is the default industry standard python package to connect with the MySQL server.	msql	Python-mysqldb	sqlserver	tserver
_____ command is one such python command that fetches python packages from its repository and installs on your local system.	tip	rip	pip	zip
The default name of the computer to connect with MySQL is _____.	host	localhost	local	term
In Uniform Resource Locator (	Stored	Located	to be transferred	Transferred
The Hypertexts are documents	Stacks	Variables	Pointers	Arrays
An HTTP message is similar in	FTP	SMTP	TCP	RIP
The location of a resource on the	Protocol	URL	E-mail address	ICQ
On Windows, If Python doesn't	python.exe	python.msil	exe.python	msil.python
When the mail server sends mail	SMTP client	SMTP server	Peer	Master
_____ is the default port of SMTP	25	70	75	80

SMTP utilizes TCP as the _____	transport	application	datalink	Network
_____ is reserved port for _____	25	70	75	80
SMTP is used to route emails between _____	servers	clients	customers	users
The _____ retrieves emails from _____	receiver	transmitter	sender	source
