

Term End Report 2023-24

CHAT GPT WITH MICROSOFT EXCEL

Objective:

The Primary objective of the training session was to enhance students understanding of natural language processing developed by Open AI, and its integration with Microsoft Excel for various applications.

Agenda:

- Introduction to Chat GPT.
- Understanding its Applications.
- Integration with Excel
- Practical Demonstration
- Hands on Session

VPM's R Z Shah College of Arts, Science & Commerce, in collaboration with NASTECH, organized a training session aimed at equipping students with the knowledge and skills to leverage advanced language models for data analysis and automation. The training was conducted over multiple batches to accommodate a larger number of participants.

Duration:

First Batch: 30th January 2024 to 6th February 2024 (10 hours)

Second Batch: 7th February 2024 to 14th February 2024 (10 hours)

Third Batch: 19th March 2024 to 21st march 2024 (10 hours)

Total Participants:

First Batch: 34 Students

Second Batch: 34 Students

Third Batch: 21 Students.

Feedback:

Feedback collected from participants indicated a high level of satisfaction with the training session content, delivery, and relevance. Attendees expressed appreciation for the practical demonstrations and hands-on session, stating that it enhanced their understanding and confidence in utilizing ChatGPT with Excel. Suggestions for future session included more advanced topics and additional hands-on exercises.
