Report on the 'Spanish Language Workshop'

Date : 29th June, 2022

Venue : College Auditorium

As the world is becoming more globalized, the people are becoming more aware about different culture and when culture comes, language has to be the essential part of the discussion. We all know the culture of learning a new language is growing rapidly, and as the culture grows the need for people who can communicate around the globe without the language being a barrier also increases.

As the need for multilingual employees in organizations increases, people tends to learn a new language as it becomes a necessity to secure a reputed job position in a renowned company. So, rather than waiting until it becomes a necessity and wasting your important progressive years over it why not learn a new language in the college years itself. Keeping the same idea in mind, **VPM'S RZ SHAH COLLEGE in collaboration with THE LANGUAGE HUB**, conducted a workshop.

The workshop was about Spanish language course and how it is beneficial in regards to future advancements. The workshop began with a motivational speech by our Vice Principal, Mrs. Anjankeea Uday Chettiar where she motivated the students with her energetic words.

The workshop carried on by introducing the main speaker of the programme **Ms.**

Ela Inamdar. She is a foreign language teacher with full fluency in Spanish language. She prepares the necessary lesson plans for kids as well as working professionals. She also implements structured activities supported by materials, session plans & training for complete understanding of students. She is a trainer in Spanish and has a 3+ years of experience.

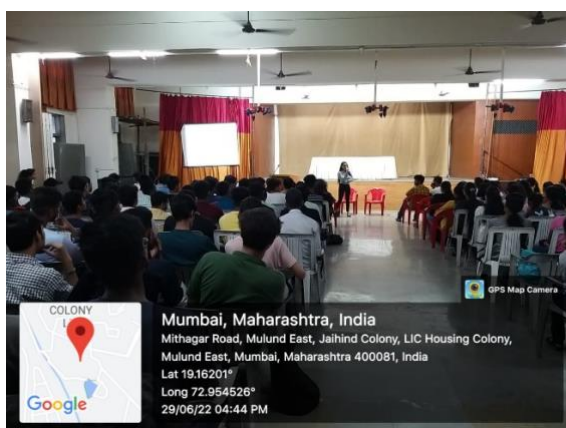

The main speaker of the workshop shared detailed information about the course, its duration, learning structure and why it is useful. We all know language becomes a way of expression and thus it creates a sense of empathy if you understand what the other person is trying to say, and this process of connecting with people is used by big multi-national companies. Thus, someone who knows a global language tends to get selected more easily than someone who does not have any idea about the same. In the same way, the advantage of learning a new language and how it is beneficial with regards to not only career but with the future advancements was shared by the Spanish trainer, Ms. Ela Inamdar.

She also shared complete and detailed information about the syllabus that would be taught in this course. And the levels involved in the course were also explained by her.

The workshop moved ahead with a quick warm up session where the trainer introduced few phrases and numbers in Spanish. The students of SY and TY along with the teachers and Vice Principal attended the workshop and made an active participation in the same.

It was 1 hour and 30 minutes of session and thus the workshop wrapped up with the trainer highlighting the significance of learning foreign language and why and how Spanish Language has an increasing high demand in working and professional life not only today but in future too.

The workshop concluded with Vote of thanks by a student where they thanked Ms. Ela Inamdar for her enlightening session, teachers and Vice Principal and also the active participator of the session, the students.
